

Announcement of a **Meeting** for the
DATS Policy Committee
Danville Area Transportation Study

DATE: Thursday, July 13, 2017
TIME: 10:30 AM
PLACE: Robert E. Jones Municipal Building (Danville City Hall)
Mayor's Conference Room Second Floor
17 W. Main St.
Danville, IL 61832

AGENDA

- I. **Call to Order & Roll Call**
- II. **Approval of Agenda**
- III. **Approval of Minutes**
 - a. *Policy Meeting of June 8, 2017*
- IV. **Public Comment Period**
- V. **New Business**
 - a. *Items of Information:*
 - ADA Transition Plan
 - Quiet Zone Study
 - Bowman Corridor Study
 - b. *Discussion & Vote:*
 - i. *Approval of the Fiscal Year 2018-2021 TIP*
 - ii. *Amending the FY 2018-2021 TIP with Vermilion CountyTIP FY 2018-2021 (see highlighted project list)*
 - iii. *Amending the FY 2018-2021 TIP with IDOT TIP FY 2018-2021 (see highlighted project list)*
- VI. **Old Business**
 - a. *Agency Reports*
 - i. *City of Danville*
 - ii. *Vermilion County*
 - iii. *Towns (Tilton, Georgetown, Westville, Catlin, Belgium)*
 - iv. *IDOT*
 - v. *FHWA/FTA*
- VII. **Adjournment**

*If you are unable to attend this meeting please contact:
David Schnelle at 431-2384.*

DATS POLICY COMMITTEE MINUTES

June 8, 2017

A meeting of the Danville Area Transportation Study (DATS) Policy Committee was held on Thursday, June 8, 2017 at Danville City Hall, 17 W. Main St., Danville, IL.

DATS Policy Committee Chairman Scott Eisenhauer called the meeting to order at 10:33 AM.

I. Roll Call:

MEMBERS IN ATTENDANCE: Scott Eisenhauer, Mayor City of Danville
Mike Marron, County Board Chairman
Proxy Doug Staske
Craig Emberton, IDOT District 5
Proxy Robert Nelson

MEMBERS NOT PRESENT: Mike Wiese, Mayor Village of Westville

OTHERS IN ATTENDANCE: Tom Caldwell, IDOT
Betsy Tracy, FHWA
Vontra Giles, FHWA
Chris Milliken, City of Danville
Christina Foster, Resident
Bill Pickett, Media

II. Approval of Agenda

Motion to approve the agenda made by Robert Nelson and seconded by Doug Staske.

a. Voice vote: Yes 3 Nay 0 Absent 1 Abstain 0

III. Approval of Minutes from Policy Committee Meeting of April 13, 2017 made by Robert Nelson and seconded by Doug Staske.

a. Voice vote: Yea 3 Nay 0 Absent 1 Abstain 0

IV. Public Comment Period

a. No public comments

V. New Business

a. Items of information

i. Chris Milliken indicated that he will Make sure that the DATS mailing lists gets updated

b. Discussion and Vote

i. Approval of the Fiscal Year 2018 UPWP

1. The UPWP is the annual work plan for the DATS organization. It has been on public display as required and no public comments were received.

2. Robert Nelson asked that as discussed at the Technical Committee a wording modification be made on page 9 under DATS funding to add “when necessary”, to the sentence regarding the local match so that it would now read: “The funds require a local match of 20%, which is supplied by the State Metro Planning Funds and the City of Danville when necessary. All were in concurrence with that change.
3. Betsy Tracy indicated that the budget/funding at the State level was still up in the air so waiting to see whether IDOT would pay the MPO or whether reimbursements would come directly from the Federal level. That may delay or complicate the payment of the 20% State Metro Planning Funds.
4. Tom Caldwell indicated that the appropriate agreements for the DATS MPO have been submitted and are moving thru the approval process.
5. A motion to approve the Fiscal year 2018 UPWP as presented was made by Doug Staske and seconded by Robert Nelson.
6. Yea 3 No 0 Absent 1 Abstain 0

ii. Approval of IDOT TIP FY 2018-2021

1. Robert Nelson indicated that this is the TIP for IDOT projects in the area after release of projects in the multi-year program. No projects in the MPO area for FY 2018 or 2019. A motion to approve the IDOT TIP for FY 2018-2021 was made by Doug Staske and seconded by Robert Nelson.
2. Yea 3 No 0 Absent 1 Abstain 0

VI. Old Business

a. Agency Reports

i. Vermillion County

1. Doug Staske reported that the County was working on replacing the bridge super structure on Catlin/Homer Road between the quarry and IL Route 49. Starke Excavating is the contractor. Other maintenance work ongoing

ii. Village of Westville

1. No Report

iii. IDOT

1. No Report

iv. City of Danville

1. Scott Eisenhauer inquired if any more discussions had taken place at the Technical Committee level about filling the vacancy in the 5th position on the Policy Committee. It was felt that the position should be held by an elected official and ideally should be a representative of one of the townships but was recognized that is difficult at this point. It was agreed that the Technical Committee will discuss further at its next meeting.

v. FHWA

1. Betsy Tracy indicated that the rules for Performance Measures had recently been finalized and are now in place as they became effective in May. The MPO can set its own measures or accept IDOT’s measures. It was suggested that due to the size of this MPO that it probably made the most sense to just accept IDOT’s performance measures. Tracy also discussed the federal budget as it relates to transportation funding going

forward and the fact the Highway Trust Fund continues to have a shortfall.
Future TIGER funding and other programs are still up in the air at this point.

VII. Adjournment

- a. Motion to adjourn made by Robert Nelson and seconded by Doug Staske.
- b. DATS Policy Committee meeting was adjourned at 10:50 AM.

INTRODUCTION

The Fiscal Years 2018-2021 Transportation Improvement Program (TIP) is a product of the on-going transportation planning process for the Danville Area Transportation Study (DATS). It was prepared by the administration of the MPO, with assistance from the DATS Technical Committee, for the DATS Policy Committee. The projects contained in the TIP are derived from the Long Range Transportation Plan, previous TIP documents and current and future needs of the urbanized area.

The purpose of the TIP is the documentation of proposed projects spanning a period of four fiscal years in order to secure project funding. Any local project that solicits federal or state monies must be included in the annual TIP in order to be considered for such funding. Agencies who request Surface Transportation Urban (STU) funding for their projects must complete and submit a justification sheet to the MPO administration. The administration shall score submitted projects based upon criteria and scoring system specified in the justification sheet, which define how well the project fulfills the goals and objective of the Long Range Transportation Plan. The results are to then be presented to the Technical Committee to be used for an informed decision process in programming projects.

Projects are subject to the financial abilities of federal, state and/or local agencies' funding sources. When approved and endorsed by the DATS Policy Committee (the Metropolitan Planning Organization for the Danville area), these bodies certify that the requirements of 23 CFR, Section 450.308 are met.

The existing transportation system within the Danville Area Transportation Study planning boundaries is being operated and maintained with the revenue sources that are provided through federal, state and local jurisdictions. The FY 2018-2021 Transportation Improvement Program is financially constrained, meaning that all funding estimates are based on anticipated state, federal, and local budget constraints.

PROJECT CATEGORIES AND PRIORITIZATION OF PROJECTS

The FY 2018-2021 TIP is developed to meet the guidelines of the Federal Highway Administration and the Federal Transit Administration under the *Fixing America's Surface Transportation*(FAST Act). As specified in those guidelines, projects for the following categories are included:

Interstate – This category includes improvements to the Interstate Highway System, which are funded through Interstate 4R funds for reconstruction, rehabilitation, resurfacing and restoration.

Operating and Capital Assistance Projects – This category consists of transit projects funded through Chapters 5307, 5309, 5310, 5311, 5316 and 5317. All transit projects in the Danville area are included in this category.

Major or Area Service Highway Extensions – This category consists of those street projects within the urbanized area that are extensions of major rural roads into the urbanized area. Federal-Aid Surface Transportation Program Rural [STP-R] funds are used for projects in this category.

Urban Systems Projects – This category includes improvements to collector and arterial streets that are Federal-aid Highways. Federal-Aid Surface Transportation Program (STP) funds are used for projects in this category.

The continuing, comprehensive, and cooperative (3C) transportation planning process required by federal regulations requires inclusion in the TIP of those projects that will receive federal-aid funding from one or more of the federal transportation programs. These programs include: Interstate, Federal-Aid Surface Transportation Program Rural (STP-R) and Urban (STP-U) funds, Highway Bridge Replacement and Rehabilitation (BRRP), Federal-Aid Hazard Elimination Safety (HES) and Federal Transit Administration (FTA). Those projects, of IDOT and local jurisdictions, that are not regionally significant in nature, such as small resurfacing projects or minor railroad crossing improvements, may not be individually identified in the TIP even though the projects receive federal-aid funding. Many times the smaller projects are grouped together in similar categories (i.e. resurfacing).

The costs shown in this document are estimates of expected costs based on current information available about the projects. Any significant changes to the cost of a project need to be reported to the DATS Technical and Policy Committees.

This document sets priorities in two ways. The report differentiates between projects to be constructed or receive funding in the first fiscal year (FY 2018 Annual Element) and those to be constructed during the following three fiscal years (FY 2019-2021). The amount of time required for preliminary engineering and right-of-way acquisition, the availability of funds and community needs will determine whether a project will be in the Annual Element or the latter portion. Also included is an area for illustrative projects that do not have any identified funding source. These projects may be moved to one of the program years once funding is secured.

Preliminary activities on some projects have been underway for some time. However, construction has not begun because these preliminary activities may not yet have been completed. Unforeseen difficulties in these activities could delay a project for a year or more. Thus a project may be included in the Annual Element for two years or more. Projects are prioritized at minimum on an annual basis to reflect changing needs and circumstances.

TIP ANNUAL ELEMENT

In accordance with 23 CFR 450.220(c), the Metropolitan Planning section of the Federal Register of October 28, 1993, the participating members of the Danville Area Transportation Study agree that the State may propose federal-aid projects funded from the Highway Safety Improvement Program. They also may propose projects funded with Interstate, NHS, STP-R, STP-U, HES and BRRP monies, to be included in the statewide program of projects with these projects being drawn from the annual element of the TIP.

All federally funded projects that significantly alter the functional capacity or capability of a facility will be included in the TIP Annual Element.

All STP projects, regardless of work type, will be included in the TIP Annual Element. Some projects of similar work types will continue to be combined in the TIP Annual Element as categories of improvements such as engineering, intermittent resurfacing, etc.

The Illinois Department of Transportation will continue to provide the Danville Area Transportation Study with the Department's entire annual and multi-year highway program regardless of funding source and work type.

The Illinois Department of Transportation will notify the Danville Area Transportation Study of all projects proposed for State letting regardless of funding source and work type, including projects not shown in the TIP Annual Element.

The Danville area TIP will be utilized to develop the State's Transportation Improvement Program (STIP). Highway and transit projects eligible for grouping will be summarized by year, funding source and type of work. The Danville area TIP will be incorporated by reference to the STIP. The STIP will be submitted for FHWA and FTA approval with appropriate documentation of public involvement.

TIP SELECTION PROCESS

In accordance with *FAST Act* regulations, the four-year TIP is financially constrained. In other words, all projects in the second, third, and fourth year annual elements have reasonably guaranteed funding sources. Project implementation priority is given to the first annual element. However, circumstances may present themselves which necessitate the movement of a latter annual element project forward to the first year. When this occurs, such a move will take place by action of the Technical and Policy Committees. The Technical and Policy Committees shall also approve any project subject to amendment.

The Danville Area Transportation Study receives an allocation of funds each year through formulas determined by the FHWA, FTA and the Illinois Department of Transportation, administered by the Illinois Department of Transportation. The Surface Transportation Program (STP) funds are funds for the Danville urbanized area. Consensus among the jurisdictions through action of the Policy Committee determines the best use of these funds.

PUBLIC INVOLVEMENT EFFORTS

Since its inception in early 2003, DATS has been actively committed to involving the public in the planning process. Whenever a regular meeting, public hearing or informational meeting is held, consideration is given to all comments or suggestions. In some instances, responses to resident input are prepared in writing and distributed to interested parties. For major transportation system developments that require formal Environmental Assessment (EA) or Environmental Impact Statement (EIS), comments received by the public at a public hearing or by letter are responded to directly in the final report. The MPO embraces an active role in identifying public participants. The administration presently maintains a mailing list, which includes active members of DATS committees and persons who have requested to be notified of meetings and events.

The public is informed about DATS public meetings via announcements that are sent out to all individuals on the mailing list at least one (1) week prior to the scheduled event. Meeting announcements are also published onto the Internet via the DATS website, www.dats-il.com

All interested parties are encouraged to join and participate at all DATS meetings. To facilitate public involvement in the development of a document or project, copies of all documents discussed at the DATS meetings are made available for public inspection at the MPO office prior to each meeting and are given to individuals upon request. News releases are distributed periodically to announce the availability of a DATS report or to provide background on planning activities. Final copies of all DATS documents are made available to the public via the DATS website and the MPO office.

In addition to the formal public involvement process mentioned above, DATS relies on many informal techniques. This is especially important when considering that area residents often bring transportation planning issues and problems to the attention of their elected officials. For these reasons, DATS staff members often attend meetings of other governmental agencies. Informal public participation occurs when an interested citizen contacts the DATS office to discuss an issue in which they are interested, or when a citizen or business requests transportation or planning data.

In developing the FY 2018-2021 TIP, the administration complied with the guidelines set forth in the Danville Area Transportation Study *Public Participation Plan*, adopted in *April 2015*.

REPORT FORMAT

Local projects may be identified by the DATS numbering system. This system lists the primary funding source, the anticipated year of construction and a second number referencing the project within this report (XX-YR-##). Local projects begin with the following initials:

AGENCY		INITIALS
Village of Catlin	-	CA
City of Danville	-	DA
